Subject: Microsoft Settlement

Justice Department,

I'm just going to throw in my two cents on this fiasco....

I would make Microsoft be the funding for this economy. Help everyone out here by making them donate cash to our schools (they need it the most) for anything the schools need. New Macintosh systems, more teachers, larger schools or even more teachers. (Did I say that last one twice?)

Bottom line, they were wrong and need to pay for it just like everyone else. Sure this is a special situation, but it shouldn't be treated any differently. They are a monopolizing company with bad business practices. Will they stop? Their too big and that business practice is, plain and simple, how they do business. Can we help America out since they screwed up? You bet we can.

We can't have them fold or get split up. They need to be just as supportive of the American economy as everyone else. They just need to be regulated a bit more.

Thanks for your time,
Jay Runquist
